

PRODUCT CHANGE NOTIFICATION

Title Notification of change in IC used to manufacture OeA4 series

Keywords Product Change Notification: IC change in the OeA4 series.

Article: **Products Affected: Pletronic OeA4 series**

Description and Purpose of Change: IC change due to end of life notice of the current IC. Five volt operation will no longer be supported with the new IC. The Oscillator performance may have variations in performance dependent on specifications requested. This notice is written in accordance with Pletronics ISO requirements.

- Change due to end of life notice of the current Integrated Circuit (IC).
- Oscillator performance may have variations in performance dependent on specifications requested.
- The five volt operation will no longer be supported with replacement IC.
- **Last time buy of the current version is limited to existing stock.**
- **Please see page 2 for notice about the IC supplier.**

Pletronics Inc. certifies this device is in accordance with the RoHS (2015/65/EC) and WEEE (2002/96/EC) directives.

November 17, 2020

To Our valuable Customers,

As you may be aware there has been a major disruption in the TCXO supply chain. AKM a major supplier of Integrated circuits used in TCXOs suffered a major fire. We have been in contact with AKM management and information related to Pletronics's TCXO production is provided as follows:

1. Due to the fire that broke out in AKM's factory, there is a high chance that AKM will be unable to achieve normal supply until December 2021
2. Pletronics's affected products include the All TCXO series and a couple of OCXOs (OSN4 series).
3. Due to the uncertainty of the IC supply quantity from AKM, Pletronics's TCXO production will be reduced.

Each order must be reconfirmed with your Pletronics sales representative.

Finally, Pletronics has accelerated the verification of alternative IC solutions for TCXO products. Unfortunately, this will not be an overnight solution.

Please contact your Pletronics sales representative for more details on these product solutions.

Sincerely,

Pletronics, Inc.
